Deze pagina's zullen vanaf 01-07-2020 een maal per week worden bijgewerkt, steeds meer landen stoppen met dagelijkse cijfers.

Per 01-07-2020 is het RIVM gestopt met het publiceren van dagelijkse cijfers, per 1 juli 2020 komen de cijfers van Bron 1 hieronder:

Door de cijfers van het JHU op een andere wijze te presenteren en er mee te rekenen, hopen wij dat U een nog breder inzicht krijgt

in de actuele stand van zaken rond het COVID-19 wereldwijd.

02-aug-2020 : Van Spanje, Zweden, Servie en Ierland ontbreken cijfers over het aantal herstelde personen de afgelopen week.

Alle cijfers uit de kolommen E, H en J in de tabellen hierboven en hieronder komen uit Bron 1, in de link hieronder.

Per 1-7-2020 : geen cijfers mee van RIVM

Bron:

https://en.wikipedia.org/wiki/2020_coronavirus_pandemic_in_the_Netherlands

LET OP:

Per 1-7-2020 : worden geen cijfers meer verstrekt door het RIVM, per 1-7-2020 komen alle cijfers van JHU.

Opmerking:

Nederland is een van de weinige landen op de wereld waarbij men niet hoeft te melden dat men beter is, dan is het ook moeilijk om een goed beeld te verkrijgen hoeveel Nederlanders nog rondlopen met COVID-19. Daarom lijkt het in de tabellen dat Nederland nog veel COVID-19 gevallen heeft. Dit verschijnsel ziet U ook terug in de cijfers van Zweden en Het Verenigd Koninkrijk. Niet goed meten is ook niet goed weten!
